

5 December 1946

MEMORANDUM TO: Chief, Interdepartmental Coordinating  
and Planning Staff

SUBJECT: National Intelligence Requirements - Russia  
(Scientific)

1. The attached draft on national intelligence requirements for Russia on scientific research is for your consideration prior to an inter-agency meeting to consider the subject.

2. This draft was prepared from the viewpoint of current requirements as affecting the national security of the United States.

3. Requirements of the Joint Research and Development Board are not included inasmuch as that organization failed to submit its requirements though requested four times to do so.
